

Understanding Variation in Health Visiting

We are looking for professionals and practitioners of health visiting services to participate in our research project!

We are carrying out research to understand how the health visiting service differs across regions of England, over time, and different levels of disadvantage

How would you be involved?

We would organise an interview with you that should take around one hour. We will ask some questions about your experiences of commissioning or delivering health visiting services in **[your area]**. We would offer you £30 as a thank you.

Why are we doing this research?

There have been a number of changes to the service in recent years, and we would like to understand the impact these have had

For more information and to get involved, please contact Amanda
